LEARNING**

AQUATIC TECHNICAL OPERATOR

Wherever there's a pool, there's a need for qualified, confident operators—and now, you don't have to leave your workplace or town to become one. The Aquatic Technical Operator course is delivered remotely, giving you the flexibility to complete training from anywhere in Australia, at a pace that suits you. Whether you manage a hydrotherapy pool in a hospital, maintain facilities at a remote worksite, or handle upkeep at a resort, caravan park, or school - this training gives you the tools to do so.

Designed for anyone responsible for the quality and safety of aquatic facilities, this course covers essential knowledge in water management, plant operation, risk minimisation, and compliance. With flexible eLearning modules followed by a practical workshop, it's never been easier to gain nationally recognised skills—no matter where you are.
